Dear Mr. Godfrey Mothobi

**NOTICE OF ANNOUNCEMENT OF THE INTERIM GRID CAPACITY ALLOCATION RULES ASSESSMENT OUTCOME FOR THE GRID CONNECTION BUDGET QUOTATION DEVELOPMENT FOR VANGPAN SOLAR PV FACILITY LOCATED IN THE LIMPOPO PROVINCE WITH MEC OF 40MW AND INSTALLED CAPACITY OF 40MW**

We refer to the Budget Quotation application dated 07 July 2022, reference number 431256309 as well as payment of Budget Quotation fee dated 16 February 2023 for construction of works to connect a generator to the Eskom System.

We are pleased to inform you that assessments are now complete. Your application has successfully met all criteria as required by the Interim Grid Capacity Allocation Rules (the IGCAR). In terms of the Rules, you are required to provide a Grid Capacity Allocation Guarantee prior to the grid capacity being reserved.

In terms of the IGCAR Rules, a Grid Capacity Allocation Guarantee for an amount of R 200,000,00 per MW (two hundred thousand rand per MegaWatt) must now be furnished to ESKOM within a period of 15 (fifteen) working days from the date of this request to reserve the capacity for your project, failing which the provisionally reserved capacity will be revoked.

Please use the form of Grid Capacity Allocation Guarantee attached to this request and deliver to Eskom the Grid Capacity Allocation Guarantee for an amount of R 8 000 000.00 on or before 04 April 2025.

For avoidance of doubt:

- Capacity for your project has been provisionally reserved and will be reserved in accordance with the IGCAR following the issuance of the Guarantee.
- A CEL provides an estimate of the scope to be implemented and such scope remains nonbinding until the Budget Quotation process is concluded and a Budget Quote is issued.
- Curtailment capacity is undergoing regulatory approvals and only once the process is complete and all relevant procedures for implementation are in place will curtailment capacity be implemented. As such the bases for the capacity allocation is on the CEL dated 09 July 2024 and issued on 29 July 2024.
